

# Staticide® Conductive Trays

## ESD travel protection

ACL Staticide® Conductive Trays provide ESD protection for static sensitive electronic components during handling and transportation. Stackable and durable, ACL's Conductive Trays have excellent abrasion resistance and withstand chemical damage. Made from fiberglass and UP resin with conductive additives, these trays will not outgas or lose electrical properties even after washing.

Meeting both ANSI/ESD S20.20 and European IEC 613450-5-1 guidelines, electronic components and assemblies can be transported safely.

Static dissipative tray liners are available:

For 972015 use product #7275RBM1813RE or 7375DGYM1813RE

For 972618 use product #7275RBM2416RE or 7375DGYM2416RE

### Ideal for the following applications:

- Electronics assembly
- Conveyor transport
- ESD worksurface

### FEATURES

- ✦ Smooth finish
- ✦ Resistant to abrasion and chemicals
- ✦ Temperature Range: 5°F to 230°F (-15°C -110°C)
- ✦ Conductive: less than 10<sup>6</sup> ohms RTT, RTG, Vol R
- ✦ Decays in less than 2 seconds
- ✦ RoHS3, REACH compliant
- ✦ Made in North America

Product# 972015

Product# 972618

### Conductive Trays

Product# 972015 : 20" x 15" x 1"  
(518.16 mm x 383.5 mm x 25.4 mm)

Product# 972618 : 26" x 18" x 1"  
(655.32 mm x 454.6 mm x 25.4 mm)

### Maintenance:

To clean trays and avoid insulative electrical readings, use a neutral cleaner such as ACL's 6001 Mat & Table Top Cleaner or 7600 IPA Cleaning Wipes.

Optional liners are cut to corners
